GUI APPLICATION

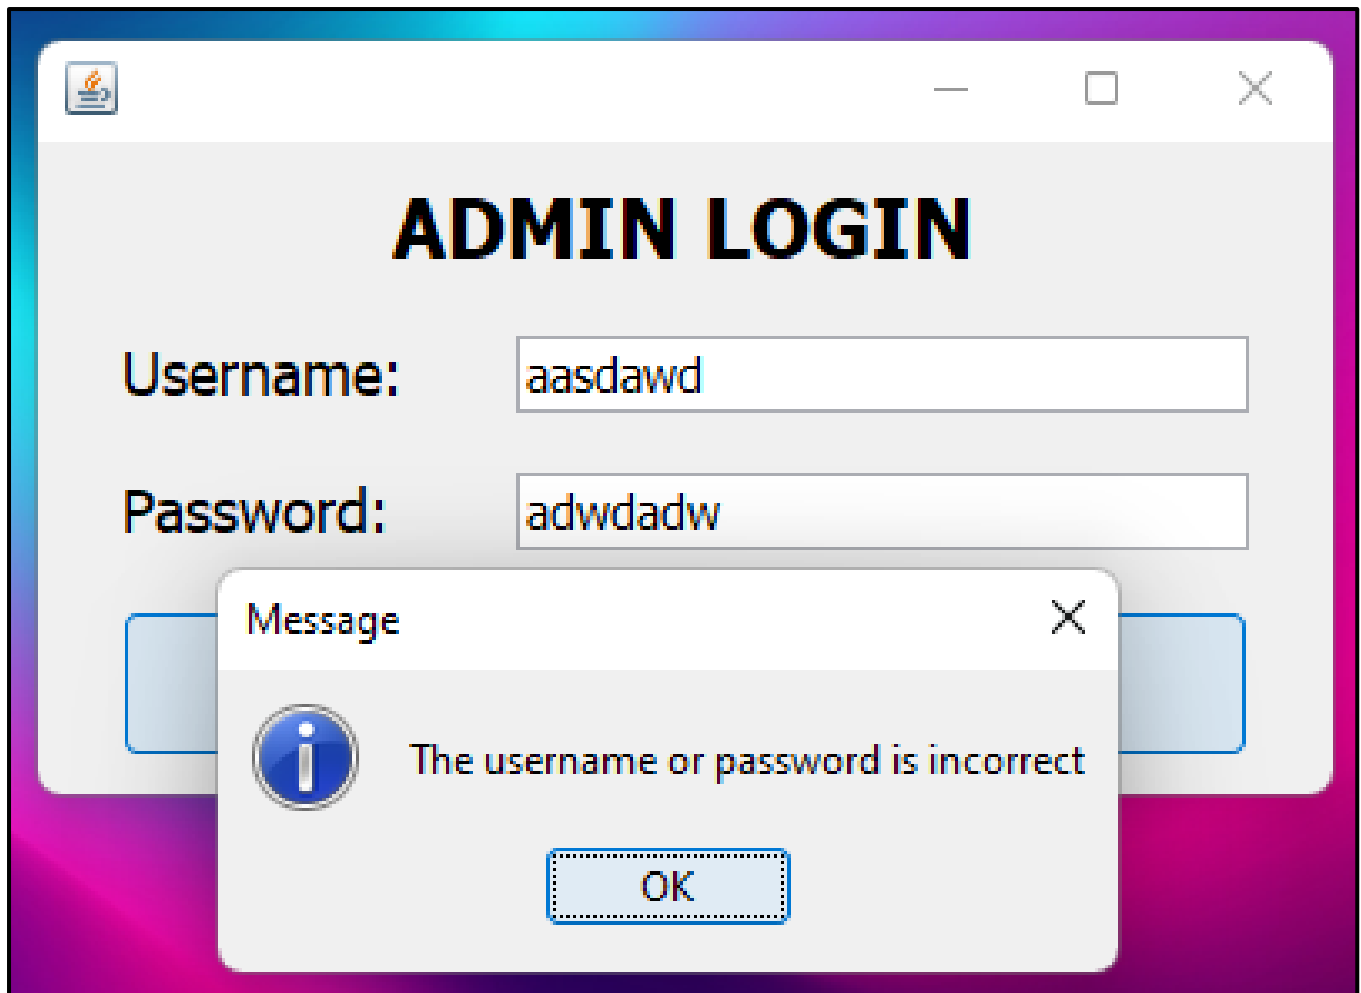

A screenshot of a web application window titled "Student Details Portal". The window has a standard macOS-style title bar with a red, yellow, and green icon on the left and minimize, maximize, and close buttons on the right. The main content area has a light gray background. At the top, the title "Student Details Portal" is displayed in a large, bold, black font. Below the title, there are two rectangular buttons. The first button is light blue with a dashed blue border and contains the text "Student Login" in bold black font. The second button is white with a thin gray border and contains the text "Admin Login" in bold black font.

Frame 1: Login type selection

A screenshot of a web application window titled "ADMIN LOGIN". The window has a standard macOS-style title bar with a red, yellow, and green icon on the left and minimize, maximize, and close buttons on the right. The main content area has a light gray background. At the top, the title "ADMIN LOGIN" is displayed in a large, bold, black font. Below the title, there are two labels and two text input fields. The first label is "Username:" followed by a text input field containing the text "admin". The second label is "Password:" followed by a text input field containing the text "admin" with a cursor at the end. Below these fields, there is a large white button with a thin gray border containing the text "LOGIN" in bold black font.

Frame 2: Admin Login

The screenshot shows a web application window titled "ADMIN LOGIN". It features two input fields: "Username:" with the value "aasdawd" and "Password:" with the value "adwdadw". A modal message box is displayed in the foreground, titled "Message", containing an information icon and the text "The username or password is incorrect". An "OK" button is at the bottom of the message box. The window has standard OS controls (minimize, maximize, close) in the top right corner.

ADMIN LOGIN

Message [X]

 The username or password is incorrect

Frame 2.2: Error when the wrong username or password is entered (admin)

The screenshot shows a web application window titled "Create Login Details". It features three input fields: "Username:" with the value "ishan", "Password:" with the value "ishan_86", and "Confirm Password:" with the value "ishan_86". A large "SUBMIT" button is at the bottom. The window has standard OS controls (minimize, maximize, close) in the top right corner.

Frame 4: Entering Student details

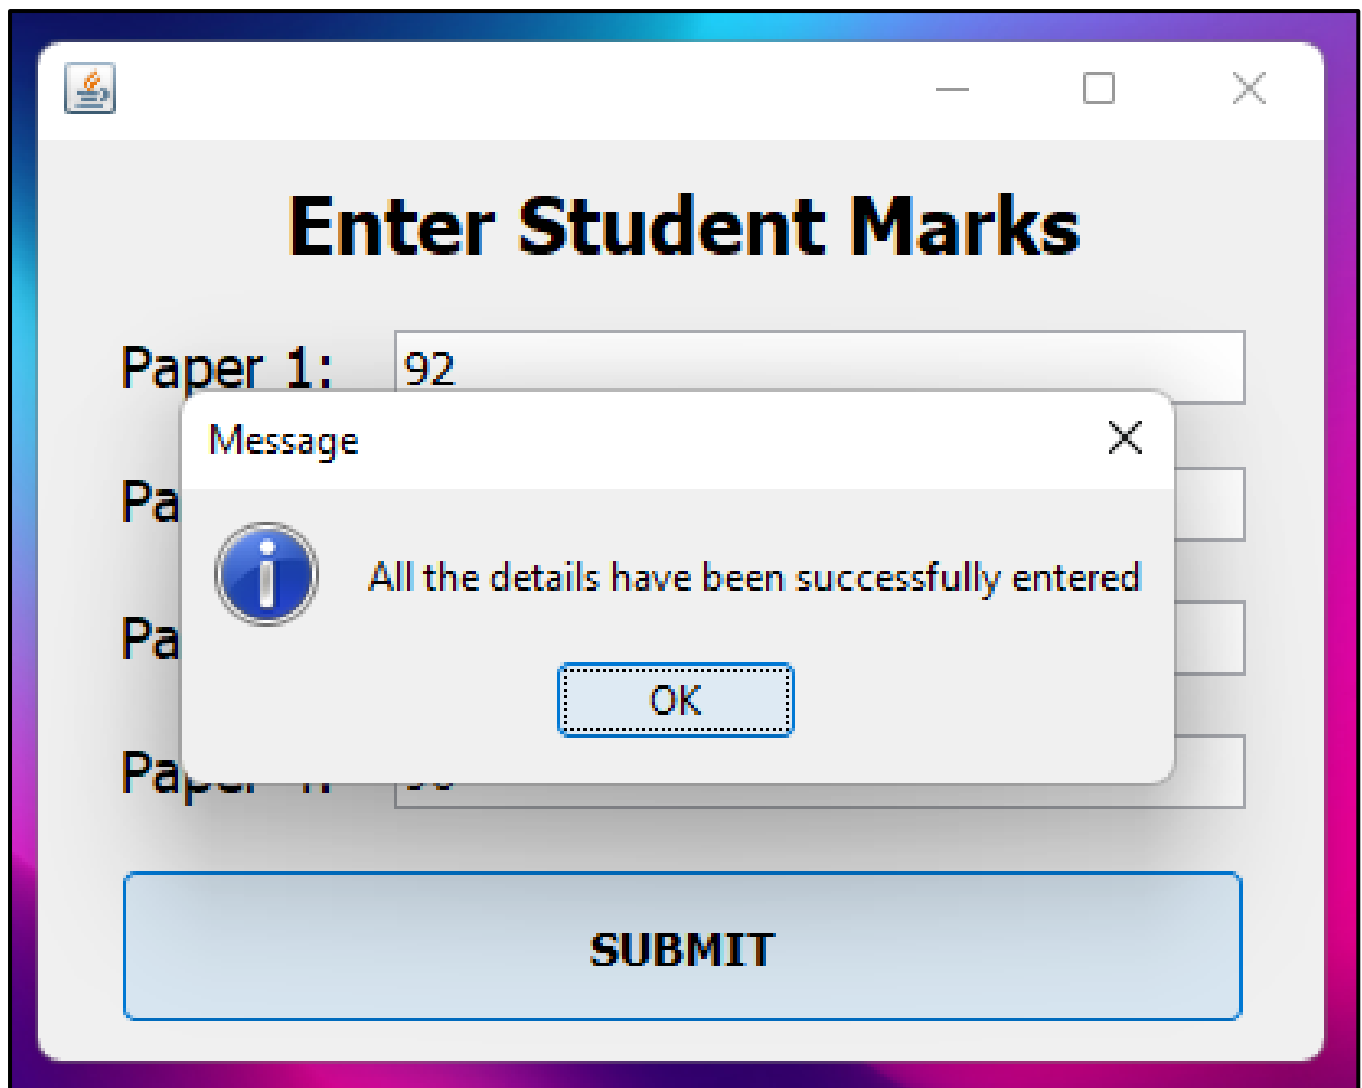

The image shows a Java Swing window with a title bar containing a small icon, a minus button, a maximize button, and a close button. The window has a light gray background and a dark blue/purple gradient border. The title "Enter Student Marks" is centered at the top in a large, bold, black font. Below the title, there are four rows of text labels followed by text input fields. The labels are "Paper 1:", "Paper 2:", "Paper 3:", and "Paper 4:". The input fields contain the values "92", "90", "93", and "96" respectively. At the bottom of the window, there is a large, rounded rectangular button with the text "SUBMIT" in a bold, black font.

Paper	Marks
Paper 1:	92
Paper 2:	90
Paper 3:	93
Paper 4:	96

SUBMIT

Frame 5.1: Entering Student Marks

The screenshot shows a web application window with a title bar containing a logo and standard window controls. The main heading is "Enter Student Marks". Below it, there are input fields for "Paper 1:" (containing "92"), "Paper 2:", "Paper 3:", and "Paper 4:". A modal message box is displayed in the center, titled "Message", with an information icon and the text "All the details have been successfully entered". Below the message box is a large "SUBMIT" button.
